

No internet connection at your house?

The New Hampshire Broadband Mapping Initiative wants to hear from you!

Use this anonymous **Connectivity Survey** to report the internet service at your address:

Slow internet? Visit <https://nhbroadbandmapping.unh.edu/>

Test your home's upload/download speeds with the NH Broadband Speed Test. (You must run this from the location and device you want to test.)

Your participation will help to improve internet connectivity throughout New Hampshire.

The New Hampshire Broadband Mapping Initiative is a partnership funded by the Office of Broadband Initiatives at the New Hampshire Department of Business and Economic Affairs.
