

NOTICE OF START OF CONSTRUCTION

I.	WATER SYSTEM NAME	<u>FRANKLIN WATER DEPARTMENT</u>
	ADDRESS	<u>43 W BOW STREET</u>
		<u>FRANKLIN, NH 03235</u>
	PROJECT TITLE	<u>NEW HAMPTON ROAD WATER MAIN REPLACEMENT</u>
	WATER SYSTEM PWS#	0851010-0

II. INTRODUCTION

The Franklin Water Department has received funds through the State of New Hampshire Department of Environmental Services Drinking Water State Revolving Loan Fund (DWSRF), in accordance with Chapter Env-Dw 1100.

DETAILS of PROJECT

The project will include the replacement of approximately 14,000 linear feet of 10-inch diameter water main with 12-inch ductile iron water main on New Hampton Road from the Sanbornton Pump Station to the Babbitt Road Pump Road Station. The project was identified to improve water system resiliency and benefit system hydraulics in the most recent water system planning effort. All water main replacement work will occur within the existing road right-of ways and will maintain one lane of traffic during construction.

The project has a proposed construction start date of April 20, 2020 and will follow all current guidelines regarding construction safety COVID-19 protocols as published by the New Hampshire Department of Transportation. It is expected the project will continue from April until November and will likely result in traffic delays on New Hampton Road. Once construction commences, the City will provide periodic updates on the progress and location/scheduling of the work-zone.

In addition to the water main, new hydrants will be installed and each customer along the project route will be connected to the new main with a new service from the new main to the property line.

PUBLIC REVIEW

The Franklin City Council voted to authorize funding for this project in June 2019.

No formal meeting will be held to discuss the construction of the project to maintain social distancing recommendations. Questions or concerns on the project can be directed to the Municipal Services Department.

The plans and specifications are available at, and comments may be addressed to the following locations:
