

Gazebo Walkway

Located on the river's edge just past the Odell Arch, the new gazebo now adorns Odell Park as one of the many park improvements made for the centennial celebration. The newly-constructed, multi-purpose Gazebo was generously donated by Eva Montembeault in memory of her late husband, Gerard 'Monty' Montembeault.

As an individual who recognizes the importance of Odell Park, and has most likely spent time there, you too can become a permanent part of the Park by purchasing an engraved brick or granite bench for the tree-lined walkway linking the road way to the gazebo.

We welcome orders for engraved bricks and granite benches from:

- individuals
- families
- athletic teams
- organizations
- high school classes
- businesses

...everyone who would like to support this important campaign. A brick or bench also serves as a lasting tribute to someone you would like to honor.

Odell Park Centennial Project

Gazebo Walkway Campaign

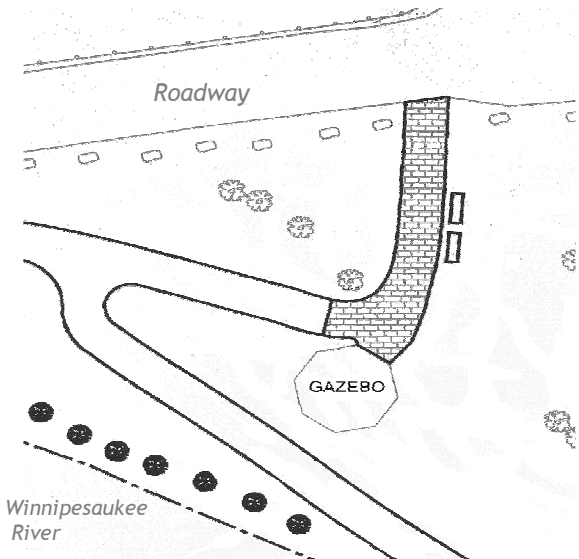

Printed through the generosity of Franklin Savings Bank

Help Create a Walkway of Memories

The brick walkway will extend from the entry parking area for approximately 70 feet to the completed Gazebo, an ideal location for small gatherings, music performances or quiet afternoons overlooking the Winnepesaukee River. Granite benches will be strategically placed along the walkway and around the trail; plans include the connection of the brick walkway to the Park's Perimeter Walking Trail.
