Mr. Glen Feener, Town Zoning Board Chair  
Town of Franklin, NH  
316 Central Street  
Franklin, NH 03235

Re: Franklin Zoning Board of Adjustment Variance Application for Appeal  
PSNH V182/F139 Electric Transmission Line Rebuild - Franklin, New Hampshire

Dear Mr. Feener:

This letter provides notification to the Town of Franklin Zoning Board of Adjustment that Public Service Company of New Hampshire (PSNH) d/b/a Eversource Energy is filing an Application for Appeal. This application requests a variance from the town's height regulations, §305-15, restricting the height of structures to 35 feet above ground level. A variance approval is required for PSNH to replace existing non-conforming wood poles with taller steel poles along the existing F139 and V182 electric transmission lines.

Proposed maintenance work in Franklin involves the replacement of 46 existing wood poles (Poles 282-288, 298-310, 312-317, 325-330, 332-337, 339-341, 346-350) along the F139 transmission line and the replacement of 49 existing wood poles (Poles 209-242, 255-269) along the V182 transmission line. Existing wood poles along the F139 transmission line range from 50-60 feet in height, with proposed weathered steel poles that will range from 60-90 feet in height dependent upon each specific structure. Additionally, existing wood poles on the V182 transmission line range from 55-105 feet in height, with proposed weathered steel poles that will range from 60-110 feet in height dependent upon each specific structure. Recent physical inspections and engineering analysis of both lines revealed that many of the wooden poles suffer from woodpecker damage, insect damage, and pole rot. Additionally, a pole height increase is necessary and required to meet national safety standards. The proposed project will maintain an existing use and proposed work will take place within the existing PSNH Right-of-Way.

All project work will be conducted in accordance with the *Best Management Practices Manual for Utility Maintenance in and Adjacent to Wetlands and Waterbodies in New Hampshire* (March 2019), published by the New Hampshire Department of Natural and Cultural Resources. Please don't hesitate to contact me at (603) 391-3951 or [strefry@vhb.com](mailto:strefry@vhb.com) if you have any questions.

Sincerely,

A handwritten signature in black ink that reads 'Sherrie Trefry'.

**Application for Appeal**  
**Zoning Board of Adjustment (ZBA), Franklin, New Hampshire**

**VARIANCE**

A. Please complete the entire application. Failure to do so will delay processing it. Nine (9) color copies of the completed application and all supporting information, collated into 9 individual packets, must be submitted by the Deadline Date in order for your appeal to be heard at the next meeting of the Zoning Board.

B. PRINT legibly and in INK. The application must be signed and dated. The owner must sign the application or a letter of authorization from the owner must be attached. ***You must be present at the meeting to speak for your application.***

This application is to be completed by anyone requesting a use or area VARIANCE from the ZBA. A variance is a relaxation or a waiver of any provision of the ordinance authorizing the landowner to use his or her land in a manner that would otherwise violate the ordinance and may be granted by the board of adjustment on appeal.

1. Location of the property for which the appeal is being applied:

Street Address: Eversource V182/F139 Transmission Line Right-of-Way

	<b>Owner</b>	<b>Person Completing Application</b>
2. Name:	<u>PSNH d/b/a Eversource Energy</u>	<u>Andrew Mahoney</u>
		<u>VHB</u>
Address:	<u>13 Legends Drive</u>	<u>2 Bedford Farms Drive, Suite 200</u>
City/State/Zip:	<u>Hooksett, NH 03106</u>	<u>Bedford, NH 03110</u>
Phone #:	<u>603-634-2992</u>	<u>603-966-8962</u>
Email:	<u>ashley.friend@eversource.com</u>	<u>amahoney@vhb.com</u>

3. Zoning Classification: R-1, C, I-1

4. Briefly describe the PROPOSED project, be specific:

The proposed work includes the replacement of 95 existing wood poles with new steel poles along the V182 and F139 Transmission Lines. This work is part of PSNH's ongoing routine structure maintenance in NH.

5. Please attach to the application a plot plan, on an 8 ½ x 11 sheet of paper, or survey plan that shows: the existing property lines; all existing and the proposed structure(s) and their setbacks from the property lines for both; any wetlands, ledge, flood area, septic systems, or other features that limit where the proposed structure(s) can be placed on the property. The Board reserves the right to require a formal survey plan to assist in the consideration of the application request.

6. Site has (Check appropriate response): ☐ City Water ☐ City Sewer ☐ Well ☐ Septic

7. Was a Variance previously granted for this site: ☐ Yes ☒ No

*Please respond to whether the following is a true statement or a false statement and EXPLAIN your answers in DETAIL:*

- B. A variance may be granted if all the following criteria are met:

1. The Variance will not be contrary to the public interest: ☒ True ☐ False

The work along the V182/F139 Transmission Lines in Franklin is in the public's best interest because it is part of the required maintenance for the existing transmission system to support electric utility reliability.

2. The Variance is consistent with the Spirit of the Ordinance: ☒ True ☐ False  
The project is consistent with the Spirit of the Ordinance because it supports the general safety and well-being of the public by providing increased reliability of the system.
3. Substantial Justice is done: ☒ True ☐ False  
Granting of this variance provides Substantial Justice by allowing PSNH to maintain existing transmission assets within a lawful right-of-way.
4. The Value of Surrounding properties are not diminished: ☒ True ☐ False  
PSNH will be replacing 46 existing wood poles with new steel poles on the F139 Line and 49 existing wood poles with new steel poles on the V182 Line installed within the same vicinity. This is part of PSNH's utility maintenance in NH.
5. Literal enforcement of the provisions of the ordinance would result in an unnecessary hardship.
- A. For purposes of this subparagraph, "unnecessary hardship" means that, owing to special conditions of the property that distinguish it from other properties in the area:
- i. No fair and substantial relationship exists between the general public purposes of the ordinance provision and the specific application of that provision to the property; and Pole height increases are necessary and required to meet national safety standards. ☒ True ☐ False
- ii. The proposed use is a reasonable one. ☒ True ☐ False  
The proposed project is maintenance of an existing use.
- B. If the criteria in subparagraph (A) are not established, an unnecessary hardship will be deemed to exist if, and only if, owing to special conditions of the property that distinguish it from other properties in the area, the property cannot be reasonably used in strict conformance with the ordinance, and a variance is therefore necessary to enable a reasonable use of it. ☒ True ☐ False
- If the variance is not granted, PSNH would not be able to conduct the required maintenance.

Your application is incomplete unless the following are submitted:

- i. Letter of authorization, if you are not the owner;
- ii. Plot Plan sketch (refer to Letter A #8);
- iii. Abutter's List, blank form attached; and,
- iv. All fees are paid.

Note: The Zoning Administrator and/or the Zoning Board may require more information if necessary and may request a Site Visit to your property.

**672:3 Abutter.** – "Abutter" means any person whose property is located in New Hampshire and adjoins or is directly across the street or stream from the land under consideration by the local land use board. For purposes of receiving testimony only, and not for purposes of notification, the term "abutter" shall include any person who is able to demonstrate that his land will be directly affected by the proposal under consideration. For purposes of receipt of notification by a municipality of a local land use board hearing, in the case of an abutting property being under a condominium or other collective form of ownership, the term abutter means the officers of the collective or association, as defined in RSA 356-B:3, XXIII. For purposes of receipt of notification by a municipality of a local land use board hearing, in the case of an abutting property being under a manufactured housing park form of ownership as defined in RSA 205-A:1, II, the term "abutter" includes the manufactured housing park owner and the tenants who own manufactured housing which adjoins or is directly across the street or stream from the land under consideration by the local land use board.
